

Dear Parent/Guardian,

**Our school is using Lexia Strategies™, a reading computer program that provides practice and instruction in foundational reading skills for students in Year 7 and above. If you don't already have Lexia Strategies at home, getting started is easy!**

1. For **computers (both Mac & Windows)** launch your web browser and go to [www.lexiastrategies.com](http://www.lexiastrategies.com):
  - Note only current browser versions supported, Internet Explorer 11+, Safari 8+, Chrome 31+, Firefox 31+
  - If you have a slow Internet connection you can install the Lexia Strategies UK software locally instead of using a browser. Go to [www.lexialearning.com](http://www.lexialearning.com) and click Downloads at the top of the page and follow the instructions. You will need a 16-digit SiteID (see below) to install Lexia Strategies. *(Don't forget to key the dashes)*  
SiteID/Customer Code (for software setup): **3023-8814-1014-2442**

For **iPad/iPad mini**:

- In the App Store, search for "Lexia Strategies UK"
- Download the Lexia Strategies UK app.

For **Android tablets**:

- In the Google Play Store, search for "Lexia Strategies UK"
- Download the Lexia Strategies UK app.
- Note that the app is not available for Kindle.

2. For internet versions (browser, iPad & Android) the first time you open Lexia Strategies UK, you must set it up:  
Click the Home Use button, if prompted, and provide your school's email address (below).

Lexia School Email (for web or app setup): **lexia@jracs.bardaglea.org.uk**

3. After you have set up Lexia Strategies UK, allow your child to login:
  - The username and password (below) is the same login they use at school.
  - Important! Allow your child to work independently. Provide encouragement, but don't give away the answers!
  - Please try to ensure an average of 20-30 minutes per session and keep usage at a reasonable level – not too short and not too long.

- Student Username \_\_\_\_\_

- Student Password \_\_\_\_\_

**Need more help getting started? Go to [www.lexialearning.com](http://www.lexialearning.com) and click Support.**
