

Brene Brown is white but supports peace,  
She says, 'shouldn't rallying be All Lives Matters?

No

Because humanity was not stripped from all lives,  
as it was from the black citizens'

Luther King said, 'there comes a time when  
silence is betrayal',

When we keep ourselves divided

Unity now excludes the black.

Discrimination, Racism, Differentiation,

They are all choices we make, things we do

Atatiana Jefferson was black,

Killed at 28, her front door was opened,

Led to her death,

Many like Aura Rosser, Breonna Taylor, George Floyd  
are dead

'Cause we couldn't speak up,

'Our lives begin to end, the day we become  
silent about things that matters'

We've had enough

We all bleed the same colour

As we all have the same rights

Our,

Kins are scared to be a part of this world,

'cause when the colour of their skin is seen  
as weapon,

They'll never be seen as unarmed

We want better for our next generation

For we all bleed the same colour.
