

Key Stage 5 results- August 2022

We are delighted that our students have come to the end of their sixth form academic studies having managed to overcome the challenging 2 years they have faced as a result of the pandemic. Our students have shown dedication and resilience and have sat their first set of external exams since year 6!

Many of our students have achieved A* and A grades in the subjects they studied, including A*s for Ella (psychology) and Chris (sociology), and A grades for Bridget (biology, maths and psychology) and Dimeji (politics and sociology). 4 of our students achieved the highest possible grade in their BTEC business or CTEC health and social care course, achieving D*D*D* and these students are Lucy, Lyaba, Natasha and Gabija.

There are many students who have been offered places at prestigious universities and we are overjoyed that Lara has secured a place at the University of Cambridge to study English. In addition to this, Zahra is looking forward to studying neuroscience at King's College London.

Our students have chosen to continue their educational journey by studying a range of subjects at universities across the United Kingdom. We have students studying a variety of subjects including history, psychology, engineering, law, anthropology, finance and midwifery. Students are travelling to Birmingham, Exeter, Kent, Manchester and York and many students are choosing to study at London universities.

We are very proud of our students who have successfully achieved a place on a degree apprenticeship. After a long process of applications, interviews and test centres Timothy achieved A*A*A in his A levels and is starting a degree apprenticeship in Digital Technology Solutions at Goldman Sachs and Oliver is embarking on a degree apprenticeship in Technology, Data and Innovation at Deutsche Bank.

Congratulations to all our year 13 students. We are incredibly proud of them. They have shown determination and drive during their exams and final assessments and we wish them the very best of luck for the future.

We are delighted to see our students performing exceptionally well across a range of subject areas and qualifications. They have worked so hard over the last few years in incredibly challenging circumstances and they deserve all the success they have achieved.
